e-News

Spring began 12:57 p.m. EDT on Thursday March 20th ! Not surpringly, we had snow, but who cares?   It is Spring !!

This, and future e-News, will consist mostly of pointers to news tidbits published elsewhere, in or about the Borough.

There is an announcement on the Borough web site listing sections where water will be shut off in the coming weeks for short periods while we do much-needed maintenance. There was a recent SwiftReach call that went out as well.

There is a discussion topic on when we will close the valve and begin refilling the Lake on the Smoke Signals forum.

The last public opinion poll on the Smoke Signals forum revealed general disbelief or apathy concerning any perceived safety issues on the Lake. Only 4 people responded; of those 1 said we should do nothing and 2 said we should just better enforce the rules we have. Only one favored a change and that was segregating times for skiing, tubing and PWC use only on busy weekends and holidays.

For reasons which defy explanation the new Smoke Signals forum has attracted hackers and spammers from overseas. The symptoms were pretty obvious unless some of you were trying to teach the rest of us Mandarin and Japanese. Typical anti-spam features such as "captcha" (typing in the funky letters presented) and a series of random 'challenge' questions with fairly easy answers (for us) seem to have stopped the attacks. This nonsense is, for now anyway, only necessary for initial registration. Just remember... "Honey, the 3-legged **deer**, sometimes seen crossing the peninsula around **Palmer** Drive, rarely makes it over to the **Lodge**, a.k.a Indian Lake Resort, except during Parrot & Stiller games while wearing her black and **gold**. [Answers to the challenge questions are included in this sentence]
