Old Business:

A committee of Borough residents including the Mayor and Council President will review Ordinance 155 and determine what are the most pressing issues needed by 155's enactment.

The PC discussed if there was even a need for Ordinance 155 or whether Ordinance 144 could be kept with some corrections and modifications. By bringing 144 up to date with the MPC, incorporating more residential zones, and tweaking the PRD, maybe Ordinance 144 could stand, revised. This might be another avenue of action for the new committee to look at.
